Please join your local and state officials along with the developers of Assembly Square to discuss the land swap with DCR, better access to Draw 7 Park, and other proposed waterfront improvements to the area. Legislation to facilitate the exchange of land between IKEA and DCR is currently before the Legislature. Neighbors and members of the Somerville community are invited to come and learn about this process and to hear Federal Realty's plans for community investment and mitigation measures. Attendees will be given an opportunity to ask questions and share any concerns they may have.
